Description Legend by Marie Lu

A *New York Times* bestseller!

What was once the western United States is now home to the Republic, a nation perpetually at war with its neighbors. Born into an elite family in one of the Republic's wealthiest districts, fifteen-year-old June is a prodigy being groomed for success in the Republic's highest military circles. Born into the slums, fifteen-year-old Day is the country's most wanted criminal. But his motives may not be as malicious as they seem.

From very different worlds, June and Day have no reason to cross paths - until the day June's brother, Metias, is murdered and Day becomes the prime suspect. Caught in the ultimate game of cat and mouse, Day is in a race for his family's survival, while June seeks to avenge Metias's death. But in a shocking turn of events, the two uncover the truth of what has really brought them together, and the sinister lengths their country will go to keep its secrets.

Full of nonstop action, suspense, and romance, this novel is sure to move readers as much as it thrills.

From Publishers Weekly Oct 10, 2011 – Lu s debut is a stunner. Weaving the strands of SF dystopia, police procedural, and coming-of-age with touches of superhero and wild frontier traditions she fashions a narrative in which the action is kinetic and the emotional development is beautifully paced. June, a prodigy from the elite class of the disintegrating Republic, is being groomed for a military career when her brother, a captain, is murdered. June is quickly drafted into the team tracking his accused killer, a spectral and maddeningly persistent outlaw known as Day. June s life has been shaped by intellect, and to be driven by an emotion as ungovernable as grief makes her vulnerable in painful, dangerous ways. Day has known grief all of his life, but is no more immune to it than June is. The chase unfolds against a plague-infested Los Angeles of Gotham-like grit that Lu conjures with every nuance of smell, sound, and sight. First in a series, this story is utterly satisfying in its own right and raises hopes high for the sequels to come. Ages 12 up.

Customer Reviews Luv it!! by music obsession527<3

This book is amazing, awesome, and just really good!! I read it in 4 hours! I definitely recommend it!!! I hope there's a sequel!!:)

Awesome! by Zombiebomb

I thought it was really good and its defiantly going to have a sequel. I found this book as a recommendation for Hunger Games fans and I defiantly don't think it's as good as the hunger games, but its still a good book.

Awesome! by Luke miller:)

So good! I loved it! Highly recommended! Hope there's a sequel
