Description Starstruck by Brenda Hiatt

Nerdy astronomy geek Marsha, M to her few friends, has never been anybody special. Orphaned as an infant and reluctantly raised by an overly-strict “aunt,” she’s not even sure who she is. M’s dream of someday escaping tiny Jewel, Indiana and making her mark in the world seems impossibly distant until hot new quarterback Rigel inexplicably befriends her. As Rigel turns his back on fawning cheerleaders to spend time with M, strange things start to happen: her acne clears up, her eyesight improves to the point she can ditch her thick glasses, and when they touch, sparks fly—literally! When M digs for a reason, she discovers deep secrets that will change her formerly humdrum life forever . . . and expose her to perils she never dreamed of. Yes, the middle of nowhere just got a lot more interesting!

Customer Reviews Great read!!! by Sarahlove87

I bought this book after seeing the cover on Smashwords. The cover totally sold me, what I liked about the story is it is good I'd say for twelve and up. Other teens books like this say twelve and up but get REALLY mature. This is enjoyable for any age from the youngest to the oldest. (I'm in my mid twenties) The writing is great, my mind could easily relate to the characters and their world. I give this one five stars. :-)

Reading Starstruck left me Starstruck in a sense.... It was amazing! The book pulled me in, and it was hard to stop reading it. It's definitely one of the best books I've read so far. I recommend it to those 12 and up. It's a very sweet yet adventure packed book that lets you know that no matter what, things can change for the better.
